Dear Friends,

Thank you for your recent gift in the amount of \$162.00 that was received on July 10, 2015. Your investment will help the Association to connect people living with Alzheimer's disease and their families with care and support and to catalyze discoveries in research around the globe. On behalf of everyone affected by this devastating disease, *thank you!*

The Alzheimer's Association provides crucial care and support to Colorado residents and families affected by Alzheimer's disease and other dementias. Our programs are designed to enhance the quality of life for the individual and assist the family and caregivers with the planning necessary throughout their journey with the disease. It is only with gifts such as yours that we are able to continue to serve.

Additionally, the Association funds and collaborates to advance Alzheimer's research around the globe. More than 5 million Americans are living with this disease - the only cause of death among the top 10 in the U.S. without a way to prevent, cure or even slow its progression. As these statistics increase, so will the burden on our economy.

With your recent donation received, we will be able to further our mission to eliminate Alzheimer's disease through the advancement of research; to provide and enhance care and support for all affected; and to reduce the risk of dementia through the promotion of brain health.

Thank you again for your generous gift and your investment in this cause.

Warmest regards,
